

February 2022

Join us in 2023 for the 32nd World Congress of the IALP
20 - 24 August | Auckland, New Zealand | Congress Theme: Together Towards Tomorrow

As we step towards reconnecting and look forward to engaging with our colleagues, consider what you want to take from your next conference. What topics and aspects of your professional and academic path do you want to learn more about? We bid you welcome and join us in Auckland for IALP 2023.

The IALP Committees and You

The IALP 14 committees are a key element of the IALP. The committees of the organization address scientific, educational, and professional issues from a broad global and multicultural perspective.

These various perspectives come together within the committee framework of the organization and enrich and extend scientific inquiry and professional practice. The work of the committees is shared through publications, conferences, composita and will play a key role within the 2023 World Congress programme in Auckland.

Each of the committees deals with a critical area of science and practice.

Each month we will focus on a committee to provide you with a little insight and learning about what the committee does, how you can get involved and what to expect @ IALP 2023!

An IALP Committee provides an opportunity to advance our science within communication, voice, speech language pathology, audiology and swallowing but more importantly improve the lives of individuals from around the world.

Focus on:

Autism Spectrum Disorders Committee

The motto of the committee is **"ASD without boundaries"**. [Click to learn more](#) about the Autism Spectrum Disorders Committee, their goals and how to connect further.

SUPPORT IALP - Sponsor or Exhibit

Have your brand aligned with this important global knowledge sharing event.

Tiered Sponsorship - Promotional Items - Exhibition and many more... [click to see what is on offer](#)
Engage with our global audience over the four day programme.
